Uplifting Humanity

"Barry Auchetl has a deep and genuine passion to assist humanity, to make a difference in the world and the lives of each person he touches. Barry really cares. He sees what is and what can be. He is able to delve into the story of each person and present them with greater possibilities, even when the person, or people involved do not see it themselves. "
Anayah Joi Holilly, Australia, Founder & Executive Producer The Angel Heart Radio Network.

Conference Keynotes and Facilitated Workshops

"I can thoroughly recommend Barry Auchettl's natural vision Eye Power process, if you are interested in losing your glasses and/or generally enhancing your view of the world. Barry's natural vision process is easy to follow, easy to apply and produces real results. Thanks, Barry, for all your efforts in assisting me to view the world using my natural vision."
Pat Scahill, New Zealand

Natural Eyesight Improvement

Barry has taken the eye exercises given by optometrists and rarely done by patients, and made them easier and fun to do. Based on Barry improving his own eyesight, this presentation includes simple and effective eye exercises as well as strategies to look at what it is that you are not seeing.

Open Your Eyes

Open Your Eyes is about improving your physical eyesight and expanding your Vision of Life, and how the two are connected. It is about opening your eyes to new possibilities in all aspects of your life at home or at work. The result is an expanded vision for all.

Conference Keynotes and Facilitated Workshops

“Conversations: an inspirational game creates an ideal situation for different groups of people in large organisations to break down the barriers that seem to quickly develop. When this happens productivity increases and other improvements to the work environment occur. Consequently, I would recommend this game to any organisation that wants its staff to really work together and achieve a high level of performance.”

John Thomas, Australia, Manager Ballarat Business Centre

Conversations: an inspirational game

Barry is the creator of *Conversations: an inspirational game* which engages and forges connections among all participants. This game is a unique communication tool which develops stronger teams with the emphasis on learning to cooperate through authentic dialogue and empathic listening skills.

Conversations for connecting

Barry blends a wide variety of language skills to create a fun and interactive approach to learning positive communication. Participants develop communication skills through a range of experiential processes, which include aspects of the Conversations game, The Virtues Project and Non Violent Communication.

Conference Keynotes and Facilitated Workshops

“Barry has put the 'easy' back into Kin-esi-ology for me. I was one of those practitioners who got lost in the detail and drained my passion. Now I have it back and trust in the simplicity of what Kinesiology is all about. Thank you Barry, you're a great teacher and mentor.”

Elaine Gentles, Australia, Kinesiology Practitioner

Sabotage Clearing and Mindset

Barry has taught people around the world how to muscle test for over 20 years. Sabotage Clearing uses muscle testing to locate and clear sabotage programs from the subconscious mind. Then participants are able to have a more positive mindset to enhance their goals and general wellbeing.

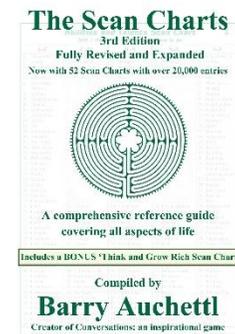

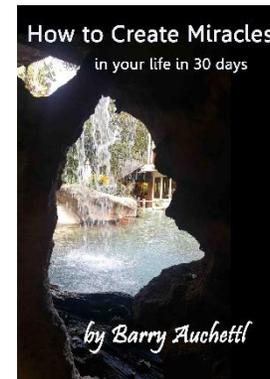

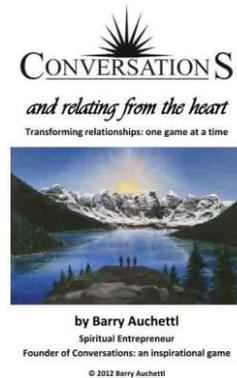

Raising Your Vibration and Frequency

Barry looks at how to raise the personal vibration (level of consciousness) and frequency in the world (law of attraction) of workshop participants. The result is that participants become open to allow life fulfilling surprises and miracles to happen at a quicker rate.

Books and Media Coverage

“I work with a company that is in Canada called The Power Within. This organization brought Pres. Bill Clinton to Canada. We have an author speaking at least once a month. Barry is one of the best speakers we have enjoyed. His average guy attitude put everyone at ease and he helped us go through an exercise that had everyone talking about how much they enjoyed it. As people talked from their hearts, we got to connect with each other on a deeper level.”
Sheryl Guillaume, Evolving Doors Productions, Canada
